

"Democracy", Civilization, and Our Gods, Life in Ancient Egypt

Post by HP Hooded Cobra 666

[Thu May 28, 2020 2:26 am](#)

In the past I may have talked harsh towards "Democracy", and this was for the (((("Democracy")))) of the present day.

Today and since the advent of the enemy, our so called "Democracy", shakes completely and hovers between these two extremes: Jewish Oligarchy and/or combined with the rule of the mindless [and brainwashed] mob.

Aristotle ranks the rule of the mob [he calls that (((("Democracy")))], similar to today, against the actual form, which he calls "Polity". In Aristotle, we have three optimal and noble ways of Governing. Monarchy, Aristocracy, and Polity. These are good forms of governing, based on the rule of an enlightened leader, an enlightened and spiritual council, or through a decent vote given to the people through which they can exercise sober and intelligence political will.

A polity, in order for it to work, requires the people be educated, not be penalized and unable to make decisions, not have fear of voting, have freedom of speech [so they can be elected if required] and there are many other fail-safes which make Polity a different thing than "Democracy" which in Aristotle's writings, basically is mob rule and always comes partnered with other forms of destruction.

On the opposing side we have Tyranny, Oligarchy and "Democracy", which in Aristotle, would be better understood today by brainless mob rule. The mass in this case is beaten, made subservient, the rights it has are removed, and the maximum power and potency to breed inferiority, passivity, weakness, meekness and stupidity in it, is made into a goal.

Therefore, the "Mass" is unable to manage it's destiny, but only cause chaos to a civilization. A time during which crafty deceivers find a way to destroy this society or enslave it.

The enemy has carefully manufactured this in today world. Both mob rule, oligarchy and tyranny, all rely on mass use of fear, using brutal force to rule, robbing people of their rights, and massive use of deception in terms of leadership, and boundless lying. Slavery is synonymous to mob rule.

The enemy by natural standards created a fake mob rule [what they did in Russia was agitate people to kill their kings and saviours], then they instated a brutal Oligarchy, and then they put Stalin as a Messianic filthy leader on the top, who abused people without bounds and killed tens of millions of his "own" people.

Does it make sense for any one to kill some argue 40 millions of one's own people? That is lunacy. But Stalin and the Jewish Cabinet of the USSR knew they were

weak, mostly unarmed, and hated them when they saw them rise to power, so they did their best to suppress them to maintain the nefarious system going.

When it comes to real "Democracy", or how Aristotle called it, Polity, this is something the enemy virulently hates, all the same way they hate every form of decent Gentile leadership. For example, a polity would have freedom of information, freedom of choice, and the people may have been poor, but not as desolate as to have to be forced to be forced into specific parties.

We are being lied about the past. We are not living in better "Times", that is enemy propaganda. The average person of Egypt lived better than middle class does today. Archaeologists are coming to these conclusions when they study these civilizations. I recommend the book "Egyptian History for Dummies". This I did not find, but rather, an SS Sister communicated this to me.

Just read it and you will see. This is also all scientific data, the book was written by reputable scientists, so no idiot can tell you that this is just "Conspiracy Theory" talking again. It's REALITY and FACTS that the enemy has tried to obliterate. There was no Jewish Hollywood style abuse in Egypt, never, so long it existed.

People were so rich and so kind that even the Jews in the Bible write, that they were so kind towards the Jews, and very friendly of foreigners, open and giving, that they gave them copious misplaced wealth, which the Jew repaid by killing the Egyptians. Indeed, one thinks today, Netherlands, Sweden, Finland... Europe... Our people have always been kind people.

If parties existed at all, if one was seeking to create a polity, one would have to allow them to be voiced. Now everything relies behind controlled Jewish press and before extreme paywalls that many movements who have validity cannot in anyway overcome.

The so called "Free means of information exchange", you saw how the enemy brutalized and destroyed them all. The enemy allows "Freedom" for the planet so long Gentiles kill and accuse one another, and generally destroy themselves, but stay away from them. The moment people start understanding what the enemy does, then all human rights are starting to get destroyed. We all felt this and saw this manifest before our eyes with "Coronavirus", that there is no real "Polity" going, but only a ruled mob that is powerless.

In Ancient Greek thought, weapons possession was not only a given, but a mandatory to Freedom. Polity relates to Politis, which means CITIZEN. One is a CITIZEN and therefore one has rights, is guarded by the law, and many other ideals which were all but gone from Europe under the rules of inferiors such as the Islamists, or the Jews, or Xians.

The Citizen or "Politis", is also an Oplitis, which is essentially "A weapon bearer", the O taking the place of the P. Having weapons is an Ancient Greek ideal. And why would a people have weapons? That is simple. Because power abuse on a

helpless and unarmed people, always ends up in some form of dystopia.

In China, people are completely disarmed, they can do nothing about being surveilled, about being spied, and whatever the State decides will be their fate, they cannot escape. If tomorrow the Chinese Communist Party decided to microchip them by force, people would not be able to escape at all. This is the country the enemy envisions to manifest elsewhere.

Now, with the Pandemic craze going, the enemy revealed this blatantly. The blunt of Jewish control is not enough. Do not be deceived that the enemy will be satisfied on staying on the level they are now. They are NOT satisfied. They want a full, unequivocal, jewish reptilian tyrannic order, or at least, a jewish council oligarchy, on top of a powerless and defeated mob.

The mob, as the jewish founding father of the European Jewnion have explained, has to be race mixed, without cultural or racial roots, totally censored and without knowledge or information, and generally, exist there only to be abused. Domination from a central state that controls people powerfully and has them entirely disarmed and permanently surveilled 24/7, is also the desirable thing for the enemy.

All this is necessary because the enemy is in tremendous fear and the people will start hating them so powerfully when they reveal their motivations, that this is the only way they stand a chance if at all, by using collective brutal enslavement.

Telling this to people even a couple of years ago one would be laughed at, but now, the poisonous diseased viper of the Jews has shown it's poison. This is actually however the plan that the jews have arrayed in the bible, and the so called "End of the World", where the enemy destroys all the Gentiles and enslaves them permanently. This is the "Happy ending" of "Christianity", which the Jewtrix energetic matrix is trying to manifest. Our spiritual efforts are ripping this apart.

Any normal and sensible human being would ask, why would someone be so preoccupied on turning other people to ants like that? What one has to gain in anyway from this? Every normal leader or person would want to be loved by people, and even the firmest people, and most brain-dead, would not enjoy the hatred of their own people, and such cases would be quickly eliminated.

The more one goes into the plans and aims of the enemy, the more one finds tremendous amount of evil. The most evil people of the world pale in comparison to many of the things the enemy has written in the texts of what we stupidly and foolishly call "Religion" today.

What is "Religious" about aliens invading the Earth and turning all the Earth's water supply into "Blood", which is undrinkable? Brimstone and meteors dropping on mankind and killing endless amounts of people, such as the "Apocalypse" claims?

Things like these are things the people who foolishly call "Loving Angels" want to do to humanity, as explained and written explicitly in the Bible. Humanity has been

duped in worshipping bottomless evil and hatred. Charging this against our own interest until there is nothing left on the face of the planet, but only some jews and some slaves.

Indeed there is no answer as to why, other than that, the enemy hates us and that they are alien to our midst. They want to enslave us for higher and superior purposes that the JoS has related before, which involve deep level enslavement of our species and handling them over as slaves to the enemy, who will come "seize" [they wish] our planet like a field of borg, for incorporation into their own disgusting borg.

As one does a war and turns over people with a yoke on the neck, to their king, so does the enemy hope to create a modern technological yoke, with which they will deliver us to their ET overlords in due time. This was kept highly secret even to some of their own, because even them would run fleeing if they understood what's in it for them.

It doesn't look as much like some sci-fi stuff now that people have seen the enemy mask drop. Indeed, that is the horrifying Truth and only the TRUTH. We are dealing with some hostile and extremely vile alien force in all of this.

Look at how now the enemy targeted countries that are unarmed, to push vaccinations, and start the conversation of micro chipping. Do you think they would be even remotely imagining the same if there were 250 millions of armed Europeans, while the enemy consists of a small, irrelevant, alien and behaviorally reptilian minority? Nobody would be accepting this.

In the United States, the enemy was always losing sleep over this, and the country advanced, despite of corruption and copious jewish control, towards a better direction. This was punished by the enemy who took the approach of corrosion to take down this country, which the Jew describes as the "Whore of Babylon" or "The United States of the Satan", and so forth, in derogatory manners. That aside of course the Jew, like they did in Egypt, does not lose the opportunity to try to apply his ancient agenda on the natives anyway.

Still, in the US, because the defence by force of arms remains real, there are things the enemy sweats to think of even implementing. In the US, micro-chipping people under the 5G grid, will be met with blood and civil war, more than likely. Therefore the enemy has went in places where they could not rush into damnation, for gradual, corrosive subversion. Slow and steady, and as the situation escalates, they make movements of very obvious acceleration.

The case of many modern Nations after the Renaissance and after a lot of pain, was that many actually started creating miniature [and imperfect but still working] versions of Polity governing system. The enemy wants this gone and replaced. We must not allow this to happen. Things the enemy attempts to remove are fundamental human rights and yes, these need to be defended.

Our Gods likewise, are giving us things "For the People". The Internet is the power of all the worlds information, our human inheritance, in the fingertips of every human being. Spiritual Knowledge has been given worldwide without exceptions, and let people do their own growth, and life to take it's course.

Our Gods are not afraid of us knowing, learning, or even making mistakes. We were not always perfect as a species and we have done terrible mistakes, and probably we will do more in the future, hopefully nothing massively devastating. This is a process of learning, reason of which, we keep history, so that leaders and people can learn and not repeat the same mistakes. All the Pagan civilizations kept history all over the place, such as the Egyptian Hieroglyphics, reminders of our past, and spiritual knowledge.

All of this going by the enemy is because the enemy is mortified. They know they have some real fucked up plans that nobody would readily accept, and that they have done incomprehensible crimes against our past and our human destiny. No Gentiles were exempt out of this.

How much the enemy wants to destroy civilization is something one can easily see in what happens to the past, when things like ISIS/ISIL take over territories...The story of thousands of years, blown up to smithereens by animals in one second. These monstrosities incarnate the thoughtform and jewish matrix of the enemy, in human and living form. Their actions speak for their poisoned souls, and humanity loses it's collective history.

We as Satanists are opposed to fake "democracy" that is only a deceitful title used to justify enemy oligarchy and mob rule. True Polity is something worth fighting and dying for, as are actual Gentile Aristocracies and Monarchies, which do their best so that our species survives and exists to advance.

We fight for the freedom of this world and our future. Every RTR done today gives us life in the future, every safeguarding of our present freedoms gives birth to the possibility of a higher and better level of existence.
