

Why Spiritual Satanism is the Best Religion in the World

Spiritual Satanism is the True Religion.

No matter from where you see this matter, you can see it easily, especially if you look.

Spiritual Satanism tells the Truth on the afterlife, no bullshit added. There is no need for lying, as by definition becoming a Satanist implies one has already broken their 'comfort zone' by a long shot. We say the Truth on Karma, and how it plays out, same as endless others spiritual concepts. Satanism doesn't need to fool anyone into believing this or that, and people can see what the case is and isn't, by trying on their own. People who do the meditations see most of these things for themselves. We don't tell anyone what to 'see' in that sense. We just teach people to see, by practices that anyway are inconceivably ancient and accepted to work by all pre-christian and pre-muslim civilizations. Truth in Satanism is a self-seeking, and also group-seeking inquiry.

We don't even need a 'bible' or something, because well, Spiritual Satanism is rooted in nature. Satanism as the enemy admits, is everywhere 'around' us. Be it in the physical and obvious level, or the higher and unmanifested levels (which we call the astral), Satanism is everywhere. From a beating heart, to the first breath of an infant, all the "Spiritual Satanic" values are there.

Let's assume for a moment that someone is a purely physical person that doesn't care for spirituality. Even them, they benefit from Spiritual Satanism, because we teach a sane morality. You don't do reckless evil; you become a civilizer, and keep your sights on becoming better. These are the people that Satan and the Gods like. Go after freedom, and fight those who seek to enslave you, but at the same time, don't be a stupid revolutionary as if revolution is your day to day job. Use judgment, common sense, logic.

Of all the religions in the world, Spiritual Satanism tells people, aside from any 'fancy' reason or any 'boogieman' to people to finally use common sense. Therefore we have nothing to divide with science at all. We cherish on the betterment of our existence and life on it, except of two small minor things: the ridiculing of the spiritual notion of man (except of jewish crap about its non-existence when their race practices spirituality en masse).

In Spiritual Satanism, you don't live for any afterlife, even if you know about it. You don't wait to die, seeking a better tomorrow. You strive to advance today. You really start understanding the universal understanding that some people named 'god', as a stupid idea to confuse people that they were destined to be cattle, same as some laws such as 'karma', and what's behind them. Therefore you are free, and you are master of your own behavior. Spiritual Satanism is both materialism, and idealism. Most religions are pretending one or the other, while as everyone can see, materialism always reigns. Spiritual Satanism doesn't need to pretend anything as simply both natures are accepted, and materialism is not excluded from Spirituality. On our behalf, everything is balanced and nice.

Spiritual Satanism also teaches order, but the necessity to revolt against slavers such as the enemy, who seek to destroy humanity for no absolute reason whatsoever. Satanism is a merciful religion to every person seeking to advance, and is against misplaced mercy and fake tolerance that helps nobody. In Satanism, everyone must advance and wage their battle.

If Satanism was to rule the world one day, it would be just the Truth dismantling the lies. Spiritual Satanists seek the highest idealism for the future of their Race and humanity, but we are also practical and realistic about what is going on in existence today.

In Spiritual Satanism, no person is left behind, unless they by their own admission leave themselves behind and corrupt themselves in a loop of eternal self-destruction. We carry people out of fire, but we don't take bullets for them. We don't have any slave mentality. For order to exist, there is no need for slave mentality, as simply logic and looking at things really, creates an order.

Spiritual Satanism is also a peaceful religion. However, if we are threatened and attacked, we will become spiritually brutal, and we will pay our enemies with the same currency. We don't seek the destruction of any Gentile, no matter their beliefs, unless of course they are seeking ours. We see at people who are xians and other misguided people who have been brainwashed as rather sick, unless they attack us outright.

We know Races to exist, because well, they do. We like to see reality as it is. Being a Satanist, one always has the occult and mental powers, and the support needed to go on. No matter how low someone has sunk, there is always a choice and some adherence away to become a better being. We know there are ways to eternal life, but we also see that it's in our life here that we must fight. Our views of eternal life don't make us life hating, they make us life-loving. We realize life as the greatest gift and we seek to protect and raise it to higher levels of existence.

Our so called "Anti-Semitism" is not situational, and we didn't wake up one day and decided to become anti-Semitic to uselessly rebel. We know of the hidden 'agenda' that is no longer hidden anymore, because its carriers don't even hide it anymore. It's a defense against specific groups who have tried to destroy people who, like us, under the massive label of "Satanism" have tried to advance civilization. Since their attacks have been unceasing and repeated, we are left with no other choice, and history has now been written anyway, many times in blood of many innocent Gentiles. Due to all of our values and devotion for life, we have had to do something. In Spiritual Satanism, we have morals, but not slave morals which promote injustice, misery and pain. We have thousands of years of evidence, anyway.

In Spiritual Satanism we take natural determinism seriously, but we also take our views seriously, which tell us that everyone should be able to prove themselves, and have the means to advance and become better. We don't judge solely by any birth, and every spiritual Satanist has all the means at their disposal to go anywhere they want and can, with their existence. For the impossible, we devise possibilities. We believe that Humanity is made to be something higher, which as we call it today, we call it "Gods".

We Satanists do respect nature, the laws presented to us by nature, and we believe all advancement should be done in harmony with Nature and not otherwise. We believe Humanity has only as much potential as it decides it has, and puts itself to achieve.

Lastly, in Spiritual Satanism, we don't teach people stupid values like 'anarchy' or being constantly in consistent and fruitless ego wars with other people. We know such values do not promote wellbeing, or civilization, but we are ready to defy values that may be damning to civilization. We teach people to fight if necessary, we would throw ourselves to fire for freedom and for individuality, but a Spiritual Satanist knows how to create a phalanx with his brothers and sisters when the time requires. We value brotherhood, with order, and sometimes a family character to it. But never to the expense of ego.

And why all of this. Because we have met Him who is called Satan.

"God" is not our slave, our fanboy, or something that we use as a car to get us where we want. Our "God" is our God, and so many more things than God, because today this word is empty and means a lot of abrahamic nonsense. Why do we respect Satan? Simply: because He is magnificent, He is known to us, He is the Eternal, and the Eternal can manifest itself. Because there is no reason why 'not'. We consider Humanity worthy. "God" or any being of 'innumerable'

capability should, and is able to do this as well, to relate to people in development.

We don't teach "God" is hate, or "love". Our Gods are real beings, and like us, only infinite times more advanced, have ways which we have to understand. Our Gods are not hiding to those who have eyes to see and ears to listen.

Satan doesn't claim the position of 'God', let alone any jewish 'god'. They on the other hand, claimed HIS position, with destructive aftermath for them. Satan has had His eternal throne in all Ancient Civilizations. Satan's position is, has been, and will forever be higher and inconceivable compared to 'God'. Satan also, is the only one who leads to the 'universal consciousness' that many people call "God", but in the East is called Atman: The state of supreme consciousness of creation or simply 'god', called Samadhi, and reached by Satan's Divine Name, SA-TA-NA-MA.

We are blessed to understand that the universe on its own does not 'hate' anyone, let alone favor anyone, all of which we know to be abrahamic lies. The universe is Nature, and nature rewards or damns, depending on our choices. Some people to mystify this term, they call it 'karma', or even worse in the jewish conspiracy, they pretend this universe is a jew that hates all non-jews. So much of their disturbing lies.

As we understand Him, we call Him God, but He is so much more. He is revealed to anyone, but also the ultimate, greatest, most beautiful and the most magnificent Mystery in Creation. There are no words to describe Him, but we try. Spiritual Satanism is the Eternal Way from which we follow into the Absolute.

Spiritual Satanism is the Now, the Past, and the Forever.

Spiritual Satanism is the gateway to the Eternal Truth of the Cosmos, our Father Satan Lucifer, the God of Light, Splendor and everlasting Strength.

Spiritual Satanism is Truth, Meaning, Life, and Perfection. All this is Satan, and infinitely more.

We are approaching Him and understanding Him, that which many like to call "God", but we know how to call as Satan, whose name is Eternal Truth. To us He is real, existing, and visible to those who want to see Him. We also make sure to display what is best of our God, and people who use the Gods in the same way as the enemy dogmas do, we abolish their rights them and we drive them away. This is because, unlike xians, we know our Gods are real, are Gods are existing, and lastly, our Gods do deliver justice...

We worship Truth, approached and grasped closely by spirituality, which in any way, enlivens and makes beings better, stronger, but also more peaceful, because it makes humans raise in consciousness and become more intelligent.
