

# Reversal Torah Rituals Q&A

HP Hooded Cobra 666

October 30, 2015

This post is open for any question anyone might have. I will answer some and you can add anything you want:

**Q1.** How do I raise my energies prior to doing this Ritual?

**A1.** Breathing exercises, Merkaba meditation, session of Kundalini yoga, all these are ideal. The Rituals can also be done after you are done with your meditations.

**Q2.** How much time does each Ritual take?

**A2.** If you do a full-blown Ritual, this might take from 20 to 25 minutes, for each Ritual. If you do just the vibrations, with quickly opening the Ritual, this can take as low as 10 minutes.

**Q3.** How much time should pass between the Rituals?

**A3.** Ideally, at least 15 minutes should pass. You should leave the energy to "resonate" after this is done. You can do anything physical that defines that you have "done" the Ritual. For instance, you do Ritual one, you close it. Then you go to eat something, return and do the second Ritual. Then you can repeat this process. You get the motto, just define that "This Ritual was done" by doing something else.

**Q4.** Does my time zone, moon placement matter?

**A4.** No, it doesn't.

**Q5.** Why are we doing the same Rituals as the other time?

**A5.** Because these are most powerful curses put upon Gentiles in the Jewish Bible. These are literally the biggest boulders that are keeping us behind, and the most successful things that will bring the Jews down. There will be other Rituals down the road, for other things that are keypoints.

**Q6.** Anything special needs be done meditation wise, should I expect anything bad/good?

**A6.** Aura of Protection and cleaning one's aura are mandatory. These Reversal Rituals will also remove the said curses from ourselves and also, every other person too. This means we are to expect good things, which are better meditations, faster progression, bliss and other things. Because the enemy has been blocking the astral with certain things, there may be feelings and thoughts of unease, especially in the Ritual about the Jewish Blood Sacrifices. These are things the enemy has "protected" on the astral, so it's on a very low percent possible that they will do whatever they can so you will not do these Rituals. But we will do these anyway and rip them apart like any other time.

**Q7.** How many times can I do the Rituals? Can I do more than one Rituals in the same day?

**A7.** The more, the better! You also help yourself with these Rituals, as simply these curses are put to everyone who meditates and tries to raise the Serpent of Satan. The last Ritual is of crucial importance. The more times, the better. Every little bit counts. We will keep doing and repeating these Rituals until the enemy goes bonkers and cries another 6 Trillion Shoah Biz Tears.

**Q8.** The Last week of October is due, what are we to do?

**A8.** We continue after the Week. We have 2 days to do the Rituals as many times as possible. Focus on today and tomorrow for now. Then, we will arrange after the 1st on the Month and Samhain, etc.

**Q9.** What can I do to seriously increase the power of the Rituals many times over?

**A9.** For those past the intermediate level of advancement, you can invoke the Aether prior to doing the Ritual, or just "tune" in the Aether. Just a few breaths and tuning with it will help. Also, the Cobra Breath can be done to enhance your power and focus. The conviction one does this has to be strong and pointed like a laser. In other words, feel it that you are destroying the enemy, because this is what you are doing in reality. After you are done with the Ritual, you can also sit for 1-2 minutes and contemplate silently on what you did.
