

"Satanic Grimoires"

Having studied a bunch of those and the conclusions are fairly simply evident to any person who knows anything of spirituality and/or alchemy. Most grimoires don't contain any valuable spiritual information, at all. When one has the spiritual knowledge and looks at them, one understands that there are 3 following possibilities dealing with grimoires.

One thing is that many are mistranslated from the originals. On purpose or due to lack of understanding of what the authors meant. The 'translators' made everything they could to beat the grimoires in place, and make them 'coherent' in order to sell them. Adding a lot of christian elements to it as a result.

The second point is that these books literally are from the church. Many have escaped church vaults and so forth. And the real manuscripts are in the hands of the Vatican. Which later probably made false copies and distributed these for the stupid goyim to read. And see that their 'ancestral' faith was actually bloodbath, gore, and everything else the church has lied about that it was as part of its medieval propaganda. The grimoires basically reflect these beliefs completely, and there is nothing spiritual in them, it's just christianity and what christianity says basically.

They do not reflect the beliefs of some pre-christian pagan religion and its tenets, as it should be evident. If that were the case, why don't we have any such things from the Druids of Ireland, for example? Well because it probably all were confiscated and because it contained actual information... It's as if obviously the church circulated these in order to catch the idiotic people who would use them and deal with them.

Lastly, grimoires have been composed, some of them, by legit, but misinformed individuals. To add on top of it, this is because some of these were written in a foul and scary language to keep the average reader away in the first place, and make sure that there would be no results of what one did. This was deliberate by the writers of such. The bible is also similar, on the surface it looks like a harmless book, on the deeper levels it's just a guide for jewish witchcraft.

Add these problems of the original author wanting to hide, the added stupidity and/or spiritual ignorance of the reader, the church destruction of such, and on top of it, modern mistranslations, and you will have the abominations that many emo retards consider today 'viable grimoires'.

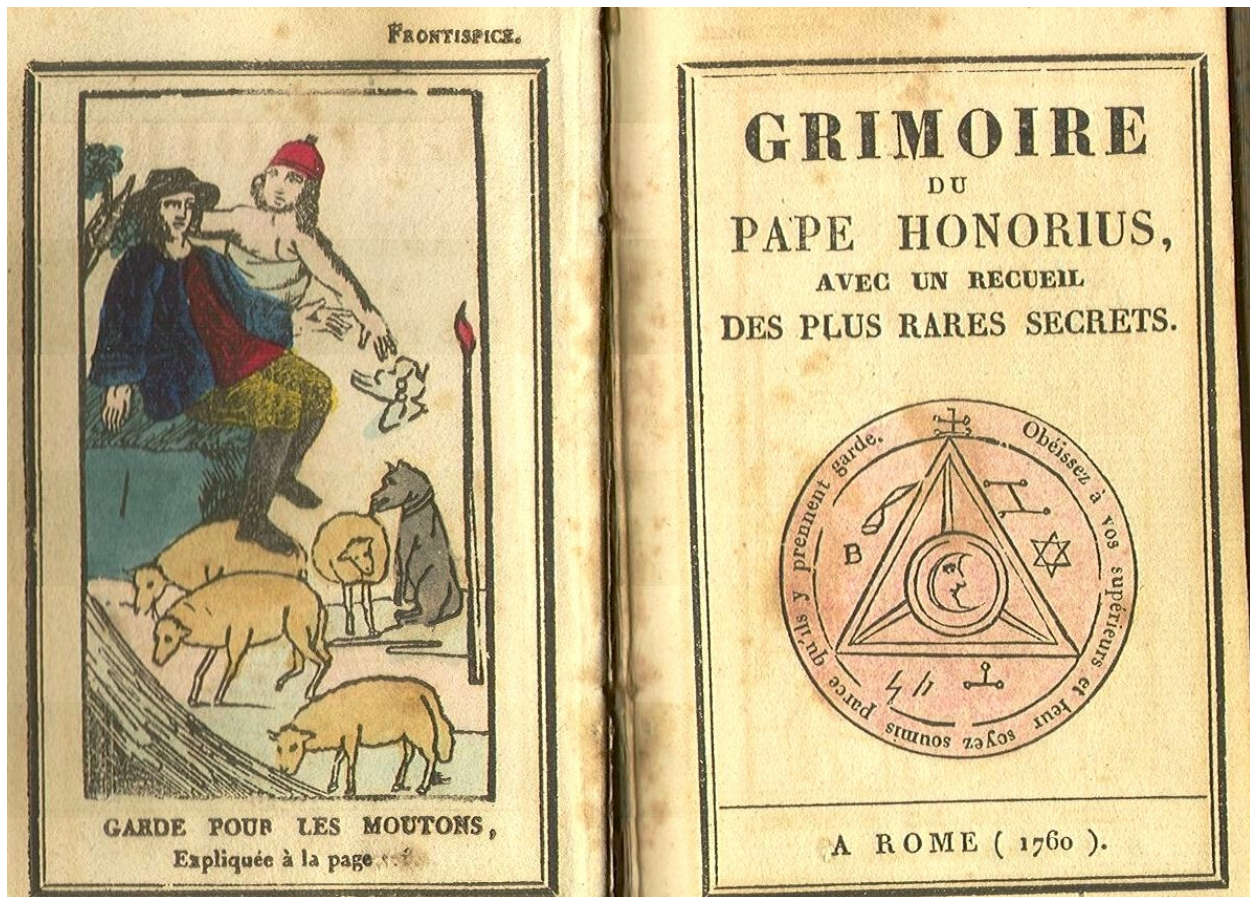

In many such grimoires one can still see that they are trying to convey something, while others are outright forgeries no different than Mickey Mouse for the Middle Ages. While there are also other 'grimoires' that were composed by random people with random beliefs and with random purposes. That hold no serious importance or power.

What also one can see in many of these is that many of the so-called 'incantations' also are more than likely, deliberately created to destroy those doing these and/or cause insanity. This includes their majority. Which is necessary for people to self-destruct and/or commit the crimes written in many. This is typical of the church to do this.

Lastly, we have some other grimoires such as the Grimoire of Pope Honorius. Well, this is a christian approach to trying to fight the Demons. And evidently what this has to do with is lengthy prayers to Christ, Jehovah, the Angels, etc., for protection in order to do so. This is part of the exorcism sect of the Vatican, nothing new. In other words, they are trying to subjugate the enemy forces by the power of their so-called 'faith', miserably failing every single time. Evidently, these things do not work, but they are attempts regardless. This simply proves the point I have made in my previous post...

That the popes are in no way practicing "Satanism", none of them, not even remotely. They are just engaging in Jewish Occultism and have tried for centuries to attack the Pagan Gods. Somehow the retard propagandists like Texe Marrs, if they see Jesus Christ written on something, they consider it holy, but if they see Jesus Christ as part of some hebrew sigil, they lose their mind. Simply because they purposefully deny the truth of the origins of all of this jewish magickal filth and like to maintain the meme that Rabbi Jesus wrote that way is good, but written in another way closer to its Kabbalistic origins, is just 'evil'.

Actually, this Pope Honorius "Grimoire" is just a book that reflects many of the Vatican manuscripts that deal with doing prayer to repeal Demons and trying to keep the Pagan Gods away who lay in wait to punish these souls of these wicked individuals after they get into the astral. Well, these are obviously just bullshit and christians trying to be Rabbis. They didn't even work at the height of the enemy's power either. But what's important is they prove what the Vatican and many others are doing. Just jewish magick essentially.

"Pope Honorius" is literally also using the 72 Name of the Jewish God. Which is effectively Jewish Kabbalah, in the name of JHVH, the father jewish thoughtform of Jesus Christ.

Christians who have the IQ of dead fish believe this is "Satanic" Witchcraft. Well, it's only Illuminati, Jewish Kabbalism basically. Appropriated for the Church. They also say some funny crap about how the "Pope" believes in Satan. Cause they paint some awry-looking symbols. Part of the prayers these "Satanic" rituals include:

"I conjure thee by the judgment of the living and the dead, by the Gospel words of our Saviour Jesus Christ, by His preachings, by His sayings, by all His miracles, by the child in swaddling-clothes, by the crying child, borne by the mother in her most pure and virginal womb; by the glorious intercession of the Virgin Mother of our Saviour Jesus Christ; by all which is of God and of His Most Holy Mother, as in heaven so on earth."

Where is the so-called "Satanism" exactly here? In that the victims of such benedictions are supposed to be the Pagan Gods or the Demons?

This is like illogical as saying that a robber, who robs someone, is he himself the robbed. But such logical absurdities of retarded christards and agents of the church are very common. The earth is also flat didn't you know you stupid fucking goyim? If your eye causes you to see facts just pluck it out.

In closing, to the emo kabbalah-wanna-be jewboys who harm random creatures, collect nails of chickens, and cook hair on a stove and believe they are doing any magick (because that's what the jewish horror flick instructs), I advise closing Talmudvision, aka Television, quitting jewish Hollywood movies, and to stop doing Kabbalistic and Jewish Magick while saying they are "Satanists".

You will earn way worse punishments and eternal grief from doing this. The church also had two instances of people doing the so-called 'Demonic Dabbling' from the jewish perspective. One was those insane, who lost their sanity, were platted in curses that Rabbi Jesus could not break - sometimes whole families went extinct. The other category is the crazy people that were put forth by the church (such as patients of epilepsy or other diseases) and claimed them to be 'demonic dabblers'.

You know in which category you will find yourself if you keep tarnishing the name of the Gods and Satan. The Gods are eternal they don't need to punish you based on your own mortal timeline. Having escaped judgment for a week, a month, a year, or a decade, means nothing to them.

Satan and the Demons will come after you with mighty vengeance and destroy your petty soul to the last fiber of it, that is, if anything remains and you haven't lost it by dabbling into this filth earlier.

For those who understand the importance of this message: Stop making them your enemies and come to your senses. Stop projecting jewish hybris on the Eternal Gods.

For those who do not: Good riddance. Please dig your own hole, jump in, and do it faster.

Shame on any Gentile who tarnishes his own Gods simply because of jewish poisonous opinion over them. As Tacitus stated, the jew hates the Gods. Stop LARPing like jews.
