

Manson Christ

Charles Manson claimed to be Jesus Christ. Now, as psychologists know, a society's beliefs will even unconsciously become a self-fulfilling prophecy. Manson was the living archetype of the character of Christ.

Manson's mother got pregnant at age 15 and was unwed like Mary. Manson never knew who his father was, just like Jesus. Manson appeared on the scene in his young thirties, the same age Jesus starting his own following. Manson claimed to be the Messiah. Just like Jesus, he claimed to be Jesus, and both Manson and Jesus ran a cult of lunatics that tried to violently overthrow the system and rule the ruins in their own world order. Both failed and were imprisoned and executed. Manson was given death, but the death penalty was overturned later and his sentence commuted to life. And Manson, like Jesus, was elevated to a mystic figure and revered as holy.

Manson's whole life and personality was nothing more than an imprinted image of the character of Jesus. He was a living Christ meme. Your Christ came in the flesh, literally. How do you like him? Manson shows you what Christ would have been like if he had existed.
