Father Zeus has been smeared, attacked and vilified for centuries. Falsely, in a most undeserving manner, only based on hearsay from the uneducated or those who wanted to position Him as an enemy.

His time is coming for redemption.

The Jewish people, the first and foremost to stand the negative slander and propaganda against the Ancient Pagan Gods, whom they collectively branded as "Daemons", was the first attack against the Gods in the form of a cultural attack.

Interestingly enough, the "Zeus" title comes from Satyan or Satyam, the Sanskrit word for Eternal Truth. The word Daemon, originally in Ancient Greek, it means literally "God".

Jews falsely declared that their "interpretation" of all of this, borne out of their own interests and solely their desires to cause cultural warfare, is the sole interpretation. Conveniently, for centuries and centuries, they tried to delete the Gods and the past; their reasons were as they claim to enslave everyone else, the "Goyim", or those whom they sunk in animal consciousness just to use them for their own purposes.

The war against the Gods will not pass and the idea of God will not perish.

The idea of "God", has also been confused to no end, to where it doesn't make any sense to most people anymore. See your average Christian and Muslim and it will be enough to figure this out.

The idea of "God" is also a luxury for the many and retarded, it's a path to the Godhead reserved for those who will try. The fact every retard opens the Bible, a Jewish low level work of interpretation and talks about "God", is only a testament of the disaster we find ourselves into now Spiritually.

As if the above was not enough, Jews have also tried to hijack the "other side" to bring it to the ground, just to be sure in case anyone would try to meet up with the "Daemons" and the "Evil Ones" to learn anything about the Godhead and these matters.

The way they did this was by creating another false paradigm on these matters, and telling humanity that "This is Zevism".

Those who call themselves "Zevists" while simultaneously engage in full on, jewish and Abrahamic blasphemy towards the Gods, having adopted negative and ugly notions to pin on the Gods, should change their course.

As everyone who has known the Gods does know, these things are not looked favorably by the Gods. I will not stay there to mention those who follow the reverse "Christianity" paradigm; you are in no serious relationship with the Gods, you are solely in a relationship with Abrahamic Propaganda and the lowest level of the self.

We do not have a problem with anyone interested in the Gods or Zevism. But it is important to us that any jewish amalgamations and any falsehoods around the Gods collapse.

The most giant attack against the Gods, was to declare their religion as "evil", negative, lowly, and to connect it with what it is not: The lesser and the imbalanced low elements of existence.

Zevism is the only real and functional form of "Paganism" that contains the real essence of Zeus; the fellowship of the Gods, the acceptance of the material and spiritual realm, the pathway to the Godhead, the appreciation of society, the rights to societal and individual function, liberty and freedom, organization of life; all in the best balance.

Atheism in the form of "Zevism" in the form of inquiry, is not bad. Provided one is a seeker and one does not use this as a gateway to promote decadence, nobody will force you to believe in the Gods. We are not these kinds of people. You can live without this pressure when we are concerned.

Decadence packaged as "Zevism" is however an offense and the greatest form of disrespect of the Gods, something that only their enemies would do, and something that the jews have invented in order to try to vilify the return of many interested people back to Zeus and the Gods. That is not acceptable, it

can be considered as a vile form of attack and infiltration.

Our Gods have excused our lack of knowledge in their kindness and understanding, but Zevism is here to lead this change that will reform all of this reality.

Soon, people will understand there is nothing bad with "Zevism", ie, being an enemy of the corrupted ones, or being someone who follows the Truth and the Daemons [Ancient Gods] in order to ascend spiritually. In fact, that is the best thing one can devote their existence to.

Further, the opinion of the jews on the subject does not matter. It is the opinion of those who want humanity to not advance, to not spread itself to the universe, to not advance spiritually, they are haters of the Gods and this development. Their opinion is of zero credibility unless in the face of the unstudied and those on board with this negative agenda.

Many also falsely call it a "Zevic" Agenda due to misinformation; but it's an anti-existence Agenda, which has nothing to do with Zeus. All the things jews created were against the "Zeus" in the first place.

For those who seek to maintain all the negative advertising towards the Gods and who want to attack the Gods while trying to wear their own uniform, be alarmed; the Gods exist and they will exact Justice on those who smear their names for their own selfish or foolish desires

I also issue a spiritual warning here. While even a vile enemy is a recognized enemy, the infiltrator and the traitor, or the person who does evil to our side from "within" our side, that is worse than being a declared enemy.

Do not attack the Gods from inside of their own House or through wearing their Diadem, because your fate will be worse than their enemies.
