Introductory words by High Priest Hooded Cobra 666 for Volume 8

The Temple of Zeus is the House under which the souls of the Gods exist, to climb all the way from the bottom of existence upwards to the Godhead.

HPS Maxine has been the great mother of the ToZ, giving birth to the baby that the Temple of Zeus is. She succeeded fully in her divine mission in giving the Temple of Zeus it's existence, during times of both major denial, adversity and ignorance. She has went down the path as a legendary daughter of Zeus, a title that is fully fitting for her based on her major works. There is no person I have respected and loved more than HPS Maxine. She gave the ToZ it's existence and then, the natural second aspect of this Mission is for all of us to make the Temple of Zeus what it was meant to be.

Simultaneously, this process will benefit each and everyone of us, making us great and grown spiritually beyond measure. As we grow our collective, our knowledge, our awareness, our capabilities, we are constructing not only our best selves, but a brighter and hopeful future of humanity. This future is currently missing from the earth, which, if we look around us, we can admit is not headed into a beautiful or uplifting level. In fact, every attempt right now to this form of development, is fought relentlessly and there are always elements willing to try to stop humanity from reaching higher spiritual and divine potential.

In regards to my mission, it's to take this beautiful child that was created, with it's impressive capacities, and it's glorious future and make it manifested. In that case, this gives me the role of the Father of the Temple of Zeus. I have been with all of you for the last 15 years, everyday, without fail, doing my best. But this is just the beginning for our mission and of our shared task. A Father might not be the one giving birth, but has a Divinely given responsibility to guide a child through it's growth, protect it in infancy, which I have done; then, one has to move bravely into early childhood and the teenage years and finally, to make a child a competent adult in the world that is poised to certainly succeed.

Without this, even the best child will struggle needlessly or be surmounted by the difficulties of existence, losing it's purpose. The world is designed that

way: the greatest elements, it goes after it. We currently live in a world ruled by anti-development and ignorance, but that won't be forever. We can change this. We will change this. I want to consolidate and manifest the full purpose of this Divine House of the Gods, so this beautiful dragon grows into the glorious Great Dragon that represents the force of the Gods manifested on earth.

After this growth, much of our work will be done; humanity will have a great being behind it to protect it, especially so for the souls that want to grow and keep growing.

Through these efforts, the little dragon that we have that is called the ToZ, is actually growing step by step, through the decided actions of bright and higher level individuals who have seen the light and power of the Gods. And still, we are quite early in our mission to manifest this fully in the world.

We must sit there and envision how the world is going to be after we succeed. That should give us hope, purpose, glory and bravery to proceed. If we also take a moment to observe how the world might go if we do nothing, we will understand why the Gods have tasked their best souls, irrespective of their level, to carry on this historical task. We are all players in history right now. On one hand we have responsibility, yet on the other, the Gods reward us with the glorious and abundant blessings of growth that are not available to anyone else but those under them. That by itself fills us with vigor and hope, and this vigor and hope must be extended outwards, so that we mark history and put the Gods on their throne again.

The Temple of Zeus is the only organization on earth that seeks to do this and that will succeed in doing this. It is therefore upon us all to manifest this most beautiful dream into a reality. We have everything we need; everyone has the ability and the capacity to give according to their powers, for the full manifestation of this dream. The future generations will thank us for our battle against present downfall and decay; we will be remembered as legendary human beings who have done what was right.

I do look forward that everyone reads this issue and that this helps you all understand our greatest undertaking, envisioning also yourself as a greater form of what you could ever be. Many of us can only look back and prostrate

ourselves in the influence of love, care and development that the Gods have brought into our lives. Life can be a hard game against ignorance, but we have bravery, knowledge and an awakened spirit from the Gods. Therefore, all of us must know, that we are here for a reason – a very big reason. All of us are absolutely integral to this purpose.

It is my desire that all of you see that reason and let it grow into your hearts and minds, making you all into always better and higher individuals. I do sincerely hope that this 8th edition of the PDF will explain to you about all the developments that will be undertook to make this happen, but also how these will reflect on all of us individually and collectively. I close this article with the following words from Our Father, to remind you of the greatness that lies ahead.

Father Satya From The Al-Jilwah:

I reveal my wonders to those who seek them, and in due time my miracles to those who receive them from me.

Let us all then, become receivers of these wonders. Let us all together, raise the Great Dragon

HAIL ZEUS!!!
